March 2026 · Confidential

Lounges
serve the
crowd.

Hotels
serve the
overnight.

**No one serves
the individual.**

The gap is real. The market is enormous. No one has filled it — yet.

King Salman International Airport.

The world's most ambitious airport. Opening 2027.

120M+

passengers/year at full capacity

78%

of travellers demand private pods

47%

choose routes based on amenities

No other firm is better positioned for this.

Aerospace & Transit

Airline cabins. Amtrak. NASA.
You design for people under
pressure in confined spaces.

Advanced Technology

IoT. Biometrics.
AI environments.
The pod is a tech product in a
physical shell.

Landmark Portfolio

KSIA is Foster + Partners.
That table requires a design
partner with your profile.

Michael Levie

Co-Founder & COO, citizenM Hotels (17 years)
Strategic Advisor, NEOM Hospitality Development
Co-Founder, KUBE Ventures

Strategic Advisor, SanctumSpace

Why this matters for this project.

citizenM is the proof of concept.

He built the brand that proved travellers pay a premium for a stripped-back, technology-first experience. That is our thesis.

NEOM is a Saudi sovereign project.

KSIA is a Saudi sovereign project. The decision-maker networks overlap directly.

He speaks in Riyadh in June.

At the Future Hospitality Summit — where KSIA stakeholders will be in the room.

Three tiers. One brief.

Teague co-designs all three — giving KSIA the flexibility to phase deployment.

TIER 01

Essential

Quiet. Private. Done.

-
- Acoustic isolation shell
 - Ergonomic work surface
 - App-based access & unlock
 - Auto-sanitising cycle

TIER 02

Luxury

Your space, tuned to you.

-
- Full lie-flat rest surface
 - Adaptive lighting & climate
 - Aromatherapy system
 - Qibla orientation compass

TIER 03

Ultra-Luxury

First class. On the ground.

-
- Premium leather & mahogany
 - AI-personalised environment
 - White-glove digital concierge
 - Riyadh Air & Amex integrated

Not a client relationship. A co-creation.

SanctumSpace

Solutions Architect

- Market strategy & commercial model
- KSIA relationship & negotiations
- Booking app & technology platform
- Brand, marketing & operations

Teague

Design Partner

- Physical pod design across all 3 tiers
- Materials, finish & sensory environment
- In-pod UX: lighting, climate, scent
- KSIA cultural & architectural alignment

"SanctumSpace, Designed with Teague" - co-branded on every pod deployed, globally.

How Teague gets paid. And keeps getting paid.

PHASE 1 - DESIGN FEE

Pre-payment. Zero risk.

Discovery & Research	\$40K-60K
Concept Design - all 3 tiers	\$80K-120K
Prototype Build	\$150K-250K
Pilot Refinement	\$40K-60K

TOTAL: \$310K - \$490K | Milestone-gated

PHASE 2 - ONGOING ROYALTIES

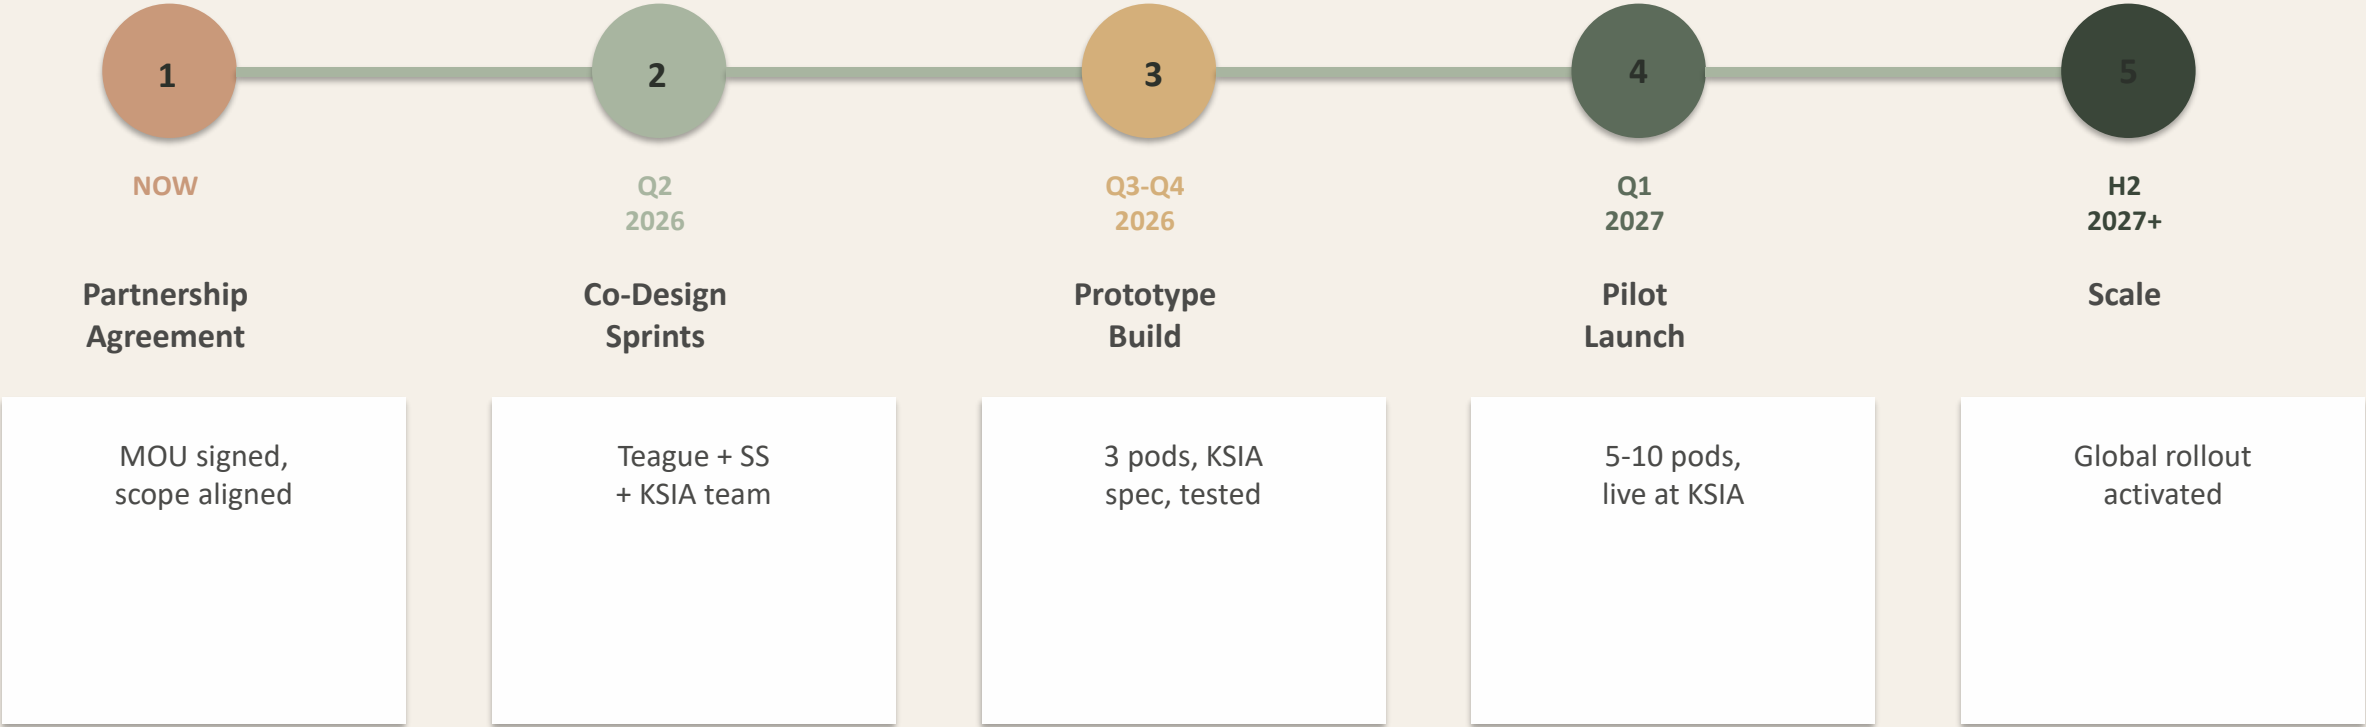

From Day 1 of operations.

Per-session revenue share	3-5% per pod
Design licence per unit	\$8K-15K at scale
Tier 3 premium units	6-8% rev share
All future global locations	Same terms apply

PROJECTED: \$180K - \$900K / year at full KSIA deployment

KSIA opens 2027.

We begin design now or we lose first-mover.

Control your moments.

KSIA opens 2027.
The pod category is unclaimed.
Let's own it together.

Let's begin.
